## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 5, 20, 22, 29, 30 and 50-61 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 5, 20, 29, 30, 50-53, 55-58, 60 and 61, the references fail to teach resetting transmission to re-start from the specified packet, such that the specified packet and packets after the specified packet within the stream of isochronous data packets are transmitted and reading flow control and retransmission information included within the isochronous back channel packet wherein the flow control and retransmission information relates to a stream of isochronous data packets transmitted from the transmitting device to the receiving device and provides a control instruction to the transmitting device to regulate transmission of the stream of isochronous data packets, wherein the control instruction instructs the transmitting device to reset transmission of the stream of isochronous data packets starting from a specified packet within the stream of isochronous data packets, such that the specified packet and packets after the specified packet within the stream of isochronous data packets are transmitted.

This taken with other limitations of the claim and dependent claims is considered novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
